UNITED HEBREW OF NEW ROCHELLE NAMED AMONG U.S. NEWS & WORLD REPORT’S BEST SHORT-STAY REHABILITATION FACILITIES

‘High Performing’ Rating Places it Among Top 15% in Nation

(New Rochelle, NY — October 31, 2018)...In the brand-new U.S. News & World Report quality ratings for short-stay facilities, United Hebrew of New Rochelle has come out on top. Its short-term rehabilitation center, staffed by Burke Rehabilitation therapists, earned a “high performing” rating — the highest possible — for the quality of care provided to short-stay residents on United Hebrew’s campus in New Rochelle.

The new rating aims to provide patients with a clearer view of the quality of care provided by nursing homes to short-stay patients in need of intensive rehabilitation or nursing services before they return home after a surgery, stroke, accident or illness, according to U.S. News. Out of nearly 13,000 facilities that were evaluated, 2,042 earned a high-performing rating in Short-Stay Rehabilitation. That places United Hebrew in the top 15%, notes Rita Mabli, president & CEO of United Hebrew.

“Finding a short-term rehabilitation center with attentive and caring therapists who provide expert medical care can be a stressful decision, especially after a major surgery or life-changing health event,” said Ms. Mabli. “So it is welcome news for families to hear about such facilities via the nationally-known U.S. News & World Report list.”

The Short-Stay Rehabilitation rating is based on nine quality measures focusing on staffing, outcomes, resident complaints and processes of care. United Hebrew scored above average on all of the measures, including the training level of nursing staff and the amount of physical rehabilitation that patients received, among others.

Ms. Mabli attributes the facility’s recognition to its commitment to expert and compassionate care, and its partnership with Burke Rehabilitation Hospital, which brings highly trained therapists from the renowned facility to United Hebrew.
“Cutting-edge therapy combined with compassionate care and the latest in rehabilitation equipment is what helps our short-term patients regain their mobility, balance, and independence, so that they may return home as quickly as possible,” she added.

The short-term rehabilitation center is part of United Hebrew’s campus of care, which includes skilled nursing, Willow Towers Assisted Living, Alzheimer’s and dementia care at Willow Gardens Memory Care, independent senior housing, and home care. United Hebrew has received accolades locally, regionally and nationally for its patient-centered care, including the American College of Healthcare Administrators (ACHCA) Eli Pick Facility Leadership award, and the Women’s Choice Award.
